Organizer's Message

India Boat & Marine Show (IBMS), which has emerged as the country's premier boat and marine industry-related expo with its three editions, will be held as a physical expo at Kochi from March 25th to 27th.

Kerala has been the maritime gateway to South India with a very long coast line. Kochi, the queen of Arabian Sea placed along this coast line, has always kept its doors open to the maritime industry. Kochi Port, an all-weather port, is most strategically located on the east west trade route. No other Indian port enjoys this proximity to the maritime highway as Kochi port. All these factors fuelled the growth of Kochi as a maritime hub.

With this in context, the event will include a full range of stakeholders in the recreational and leisure boating market including speed boats, engines, navigational and other systems and equipment, and other supply and service providers. The event will not be just about boats and marine equipments, but will cover all water sports and activities. More than 45 exhibitors will display their products and services at the expo with business visitors from across the region.

The expo will be formally inaugurated by Smt. R. Beena, IAS Chairperson, Cochin Port Trust and the Keynote Address will be delivered by Shri. N. Ravi, DIG, Indian Coast Guard. In addition to these, there will be special address by as well as from Shri. Deepak L. Aswani, FICCI Kerala State Council.

The event is supported and endorsed by K-BIP, KMRL, KMB, Cochin Shipyard, Cochin Port Trust, IWAI, Indian Navy, Indian Coast Guard and IMU. K-BIP is also putting-up a 20 stalls' Industry Pavilion for Kerala-based SME's from this sector.

Special Attraction of the Event: Vendor Development Program(VDP) to be held on March 25th from 2pm to 5pm.

This networking B2B Meet being held will focus on the Vendor Development Program for the various PSU's including Defence Establishments, Shipyards, Ports and other Agencies involved in these sectors from across the country. The VDP will focus on the products and services that can be offered by the MSME Units to the various PSUs and agencies in this sector. It is as per Government of India's Atma Bharat Scheme and each agency shall present their requirements suited for the MSME sector.

Participating PSUs & Other Agencies includes Indian Coast Guard, Naval Ship Repair Yard, Cochin Shipyard, Cochin Port Trust & Inland Waterways Authority of India.

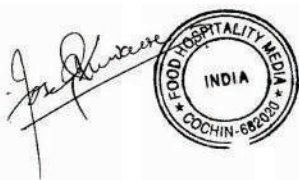

On the 2nd Day of the expo, a Technical Session-DIMS-LITE 2022 is being organized by DOSTAS (Department of Ship Technology Alumni Society) to be held on Saturday, March 26th on the infrastructural and equipment requirements such as marine crafts like pleasure crafts and small crafts, marinas, seaplanes and trained manpower which play an important role in addressing the tourism and water transportation sectors.

The people of Kerala are increasingly getting attracted to enjoy recreational time on water and with KMRL's Water Metro to be commissioned by May 2022 will now be focussing on developing the district's inland boating and marine facilities into a world class facility. The hybrid catamaran Water Metro-01 will be the first in a series of 23 such vessels that was built by Cochin Shipyard for KMRL and is a part of setting up of a world class Integrated Water Transport System for Kochi city. The vessels are expected to be operating on 15 identified routes connecting 41 jetties across 10 island communities across 76 km route network and 1 boatyard in Kochi.

Well-equipped marinas and marine recreational and sports activities need to be encouraged by the both central & state governments. With proper infrastructure and equipment, India as well as Kerala can fast become a first-choice destination for cruising and inshore water sports for the local and international tourists.

We welcome our valued exhibitors, trade visitors and delegates to IBMS 2022 and wish everyone a successful trade show.

The event is organised by Kochi-based Cruz Expos who have been conducting the boat shows in Kochi and also have been regularly organising the popular FoodTech Kerala & HotelTech Kerala series of B2B trade exhibitions in Kerala for the past 12 years. Within a short span of 14 years, Cruz Expos has become one of South India's foremost professional exhibition organisers in the B2B segment.

Dy Inspector General N RAVI
Commander
Indian Coast Guard (Kerala & Mahe)

MESSAGE

On behalf of the Indian Coast Guard I would like to take this opportunity to extend my heartiest congratulations to the organisers of the fourth Edition of the India's Boat and Marine Show 2022 to be held at Kochi.

This event is one of its kind happening in South Asia where major international boat manufacturers will participate for the maritime rescue, boating sectors, leisure and will also attract potential buyers from across the borders.

The programme is bound to encourage the stakeholders, exhibitors and partners especially for local boat builders and enable an opportunity to launch their latest models and use this platform for their national debuts. This will be an ideal event to showcase the Kerala's traditional boating sector. Further, this will provide an opportunity for exhibitors from the marine and boating industry worldwide and will accredit tourism sector to a great extent.

Once again, we would convey our heartfelt congratulations and best wishes to the Exhibitors of India Boat and Marine show 2022 and wish the event a grand success.

"VAYAM RAKSHAMA"

Date: 19 Mar 2022

DIG N Ravi

March 17, 2022

Message

The pandemic has changed the realities of our world, where we have all been impacted in some way or another. We have also witnessed the precariousness of our business community. Over the last two years, international trade has been hampered by travel restrictions, and factories and companies have been forced to shut down. But for economies to recover, business needs to grow and expand through economic development, collaboration, education and innovation.

The fourth edition of the India Boat & Marine Show 2022 will encourage the stakeholders, exhibitors and partners in the Marine and Boating industry globally to return to their normal course as potential investors have increased investments in Marinas and leisure Boating to support the Tourism industry.

I have always lived by the motto, 'Be the change you want to see in the world'. I, along with my organisation, would like to work towards the same motto and deliver exemplary platforms and events to ensure brighter, more sustainable and happier business environments.

On behalf of Kerala Bureau of Industrial Promotion, I would like to extend my heartfelt congratulations to the Organisers and best wishes to the Exhibitors of India Boat & Marine Show 2022 which will boost our business community across the globe.

Designation	: Marketing Manager
City	: Vadodara. India
Mobile	: +91 7043354300
Mail	: sales1@barodapolyform.com
Website	: www.barodapolyform.com

Products & Services: Baroda Polyform is a custom moulder, making Yolo Brand Kayaks & Boats. They also are exclusive manufacturers for Superior Jetties LLP. All products are manufactured, by rotomoulding technique, using polyethylene material. Polyethylene is a hard, high impact-resistant, UV stable material. It is colour fast & low in maintenance. The material is 100% recyclable. Our product range comprises Kayaks, Boats, Work Platforms, Pipe Floaters, Dredging Floaters, Floating Jetty, Jet Ski Docks, Surf boards, Walkways. Superior Jetties LLP specialises in conceptualizing, designing and producing customized solutions to our clients for their unique water-based requirements all over the world.

Boat Craft Services Pvt. Ltd.

Contact Person	: Mr. John Fernandes
Designation	: Director
City	: Goa. India
Mobile	: +91 9823159639
Mail	: john@boatcraft.in , boatcraft10@gmail.com
Website	: www.boatcraft.im

Products & Services: Boat Craft has been actively engaged in the design and construction of small speed boats since 1999-2000. From a modest beginning with the name Adventure Water Sports building 3 boats in a year. Boat Craft is now poised with capability to build and deliver 30 boats in a year. Boat craft initially operated on Colva Beach and now has a network covering Goan beaches as well as in most of the Indian coast and rivers with passenger boats, rescue and patrol boats and different government organizations.

Boat Craft builds commercial passenger boats for water sports, water taxi, diving and snorkeling, glass bottom boats and ferry boats to answer the varied demands of our long lists of clients. We mainly build standard passenger vessels, custom-made designs and various luxury Catamarans.

Today Boat Craft is proud to have captured 80 percent of the Goan boating and water sports industry and 60 percent of the entire Indian market.

Mobile	: +91 9811201699
Mail	: contact@tools4frp.com
Website	: www.tools4frp.com

Products & Services: During the year 1998, we started on a humble note as a sourcing company to procure specialized industrial raw materials and machinery. In a short span of time, we emerged as a team of self-motivated professionals. The year 2000 was a turning point and all our focus moved to thermoset's niche segment of Fibreglass Reinforced Plastic (FRP/GRP) Composites. Ever since, our journey has been positive and forward looking. Today, we serve numerous applications of composites in different industries. Our vision is to set standards by introducing new breed of tools & materials that can be used in highly demanding applications where boundaries of conventional solutions can be surpassed. We drive our expertise and energy to provide quality equipment and service on a committed long-term basis. The one-point agenda is to offer simple, user-friendly, and cost-effective tools of production to each moulder of FRP composite industry. We wish to empower the common work force to be able to produce high-class, top-quality

products and yet not make a dent to purchase budgets. Relentless efforts on the production floor inspired us to come up with the consolidation; TOOLS4FRP. Product Profile include equipment, wet-out roller, laminating roller, moulding utilities, shop floor basics, cutting solutions, shears & knives, mould making, quality assurance, core products-3d fibreglass fabrics from Parabeam, The Netherlands. Available in various thickness from 3 mm up to 22 mm, U-Pica Mat (Polyester) Cores from U-Pica, apan. Available in 1 mm to 5 mm and Surface Products.
